

C-23

Solución acuosa de resina esterificada.

SPECS	TYPICAL VALUE
Solids content (%)	23 ± 1
pH	10 ± 1
Brightness	Extraordinary

C-23 is a semi-synthetic resin solution with wide compatibility in alkaline formulations, when a maximum gloss film is required, where it acts as a leveler and extender.

Its very wide range of uses include:

- Floor polishes.
- Tafiletes and tanning in general.

PRESENTACIÓN:

- Drum of 120 kg
- IBC of 1000 kg
