

## LUXLEN 3015

Specifications	TYPICAL VALUE
Solids content (%)	18 x 1
pH	9 x 1
Brightness	Extraordinary
Color	Colorless

Celtic gloss consisting of an aqueous emulsion for the final finish that gives an elegant shine with high strengths to the lining and light, as well as high resistance to push-ups.

It is polishable with cotton brush. It is recommended for matching shoes where high shine is desired.

LUXLEN 3015 is especially suitable for large pore skins, as covering the pore slightly gives the shoe a finer and more elegant look.

LUXLEN 3015 is applicable to pistol (between 1 and 4 atmospheres) or brush and dries at room temperature in a few minutes.
