

LUXLEN XT-25 COLORLESS

Final wax finish

Specifications	TYPICAL VALUE
Solids content (%)	18 x 1
pH	9 x 1
Brightness	Extraordinary
Color	Colorless

Celtic gloss consisting of an aqueous emulsion for the final finish that gives an elegant shine with high solidity to frote and light, as well as high resistance to push-ups.

It is polishable with cotton brush. It is recommended to use it for matching shoes where high shine is desired.

LUXLEN XT-25 Colorless is especially suitable for large pore skins, as lightly covering the pore gives the shoe a finer and more elegant look.

LUXLEN XT-25 Colorless is applicable by pistol (between 1 and 4 atmospheres) or brush and dries at room temperature in a few minutes.
