HERNAUBA N-40

Natural wax emulsion

SPECS	TYPICAL VALUE
Solids content (%)	40 ± 1
pH	6 ± 1
Character	Non ionic
Bright	Extraordinary
Colour	Beige
Water dispersibility	Total

HERNAUBA N-40 is an emulsion of natural waxes with a particle size of less than 0.1µ, which gives it excellent gloss characteristics, together with a film hardness that makes it a base material for self-glossing preparations.

HERNAUBA N-40 is used in formulations, providing excellent gloss and hardness characteristics obtained from a natural wax, as well as resistance to abrasion and scratching.

In its wide field of use, the following stand out:

- Floor polishes.
- Treatment of hides and tanning in general.

PRESENTATION:

- Drums of 120 kg
- IBC of 1000 kg
